

Upgrade Your Organization's Digital Workspace

UDT Windows 11 Readiness Assessment for Business

With Windows 10 support ceasing on October 14, 2025, the deadline to transition over to Windows 11 is finally approaching—and fast.

Understanding your current IT environment is critical for developing and implementing a successful transition plan

Microsoft App Assure protects app compatibility, but some devices are not compatible and identifying these now is key

Some businesses lack the in-house personnel or expertise necessary to guide them through a company-wide upgrade

Build an informed transition plan with UDT's Windows 11 Readiness Assessment.

- Benefit from a detailed compatibility report with hardware recommendations and insights
- Standardize your organization's device analytics configuration through Intune or Configuration Manager
- Understand how transitioning to Windows 11 impacts procurement decisions to replace or refresh devices
- Develop an informed action plan for your transition that also enhances device management and security

Windows 11 empowers your business with powerful tools for efficient, secure, and collaborative work. UDT makes your transition seamless so you can get the most out of the upgrade—and our additional IT solutions provide value beyond the new OS.

➤ Business-Ready Devices

UDT is your one-stop solution for endpoint management. We'll simplify your device setup process by enabling streamlined user onboarding through our state-of-the-art Support & Integration Center and Windows Autopilot for Business, a cloud-based provisioning solution.

➤ Secure Technology

Fortify your business technology with configuration, security, and compliance policies leveraging Intune and Defender for Endpoint. Protect your devices and data with top-tier industry tools that prioritize security, privacy, and compliance needs across your organization.

➤ Integrated Imaging

UDT can ease preparation efforts ahead of your transition by developing Windows 11 imaging at our Support & Integration Centers for an efficient out-of-box experience. Plus, we enhance the value of Microsoft's App Assure program which promises application compatibility.

➤ Flexible Deployment

Maximize the power of Intune or System Center Configuration Manager with UDT. The integration of application packaging and maintenance allows for a more comprehensive approach to operating system lifecycle, giving you greater flexibility for deployment.

➤ Ensure Compliance

Safeguard sensitive business information while allowing permissioned staff to securely access select data. Our experts can set your policy definitions and implement measures for information rights management, data loss prevention, and entitlement management solutions.

➤ Enhance Productivity

Effectively adopt, manage, and evolve your Microsoft 365 implementation. Microsoft 365 for Business offers a suite of workforce-centered capabilities that streamline operations with enhanced productivity and collaboration tools for secure, optimized workflows.

Navigate confidently with UDT's Windows 11 Readiness Assessment for Business.

Enjoy a stress-free upgrade to the new Windows OS with an informed transition plan that's powered by UDT's dedicated team of device management, security, and productivity experts.

Benefit from 30+ years of technology and service delivery expertise. Our local account and customer success teams work with our certified experts and vendor partners to provide solutions across Lifecycle Management, Cybersecurity, Managed IT Services, Data Center and Cloud to support you through Windows 11 readiness and beyond.
