

MODERN WORKPLACE

"UDT was able to efficiently work with our IT staff and business groups to best understand both the technical and business side of our company. This well-rounded understanding allowed UDT to present a true solution that fits into our IT transformation as well as the business department. This level of knowledge, communication and transformation really makes working with UDT a win-win for IT and our business operations."

Our Modern Workplace Services

Our Modern Workplace services help organizations that need to provide their workforce with better communication and collaboration tools to improve productivity and end-user satisfaction. UDT can enable a dynamic and secure platform for workplace modernization, built with familiar tools and apps, and fully-integrated into your cloud or hybrid environment.

MICROSOFT 365

The world's most used office applications are now the world's most used modern workplace solution. Get Office 365, Windows 10 Enterprise, Enterprise Mobility+Security (EMS), and machine learning in a single bundle.

WORKSTREAM COLLABORATION

Teamwork is the foundation of an efficient workforce. Build a private and searchable digital workplace where your team can communicate and collaborate with transparency and efficiency.

UNIFIED CLOUD COMMUNICATIONS

Improve mobility, productivity, user-experience, and customer service with a cloud solution for communications.

SECURE CLOUD MOBILE WORKPLACE

Enable a mobile workforce while securing EndPoints to ensure your organization's, partner's, and client's data is protected from unwanted access.

Why Choose UDT?

WE ENABLE YOUR MODERN WORKPLACE PLATFORM ON YOUR CLOUD INFRASTRUCTURE

Our modern economy is all about delivering satisfying and experiences, both internal and external. As cloud service providers, we can ensure your modern workplace platform is fully integrated into your cloud infrastructure so you can leverage all its capabilities for your workforce, employees, and partners.

WE HELP YOU ADOPT YOUR MODERN WORKPLACE SOLUTION SEAMLESSLY AND SECURELY

Modernizing your workplace is beneficial for the entire organization, but it also needs to be a smooth and secure process for all stakeholders. Aside from providing the groundwork to improve mobility, collaboration, communication, and accessibility for your organization, we can help you manage change and adopt the solution, as well as secure your EndPoints to ensure everyone's data is protected.
