

# SUITE OF STRATEGIC & CONSULTING SERVICES

---

ALWAYS-ON, ALWAYS-AVAILABLE SECURITY BUILT TO FIT YOUR ORGANIZATION'S NEEDS

## UDTSecure Strategic & Consulting Services

Our portfolio of strategic and consulting services is aimed at keeping your IT security strategy running seamlessly & up-to-date, while ensuring all your bases are covered, and your core business assets are secured. These services include risk and security management, managed services, professional services, and a Security Operations Center.

### RISK & SECURITY MANAGEMENT

Understand and manage risk while consistently adhering to compliance requirements such as HIPAA, GLBA, NIST, ISO, and others. This security and vulnerability management allows penetration testing for different applications, devices, and systems and helps organizations improve their incident response time and effectiveness. We also provide CISO-as-a-Service to guide your security strategy without having to make a major hire for a senior level-executive.

- Risk and compliance
- Security and vulnerability
- Penetration testing
- Incident response
- CISO-as-a-Service

### SECURITY OPERATIONS CENTER

Continuously monitor your security infrastructure and enable rapid incident alerting and response, along with level 1 incident response assistance. Help your organization be FEDRAMP and SOC compliant and activate dual-redundancy for error detection and correction.

- 24/7 Security monitoring
- Incident alerting
- Response assistance
- FEDRAMP/SOC compliant

### PROFESSIONAL SERVICES

Leverage our expert consultants to boost your IT team's capabilities.

- Implementation support
- Configuration
- Solution development
- Engineering-as-a-Service

### MANAGED SERVICES

Help your IT team focus on their core objectives with managed services delivered by our experienced security consultants:

- Help desk
- Vulnerability management
- PCI-as-a-Service
- System health monitoring
- Patch management

## Why UDTSecure?

The UDTSecure Suite provides a framework that can evolve with your organization, its industry, its threats, and its changing compliance requirements. Besides giving you a fully-integrated solution for all your IT security needs, UDTSecure:
