ARMED

ARMED FOR THE DIGITAL FUTURE

ARMED for the Digital Future

The ARMED Platform is a suite of scalable security applications and products that connect with in-house developed threat intelligence modules which you can monitor and audit through the ARMED dashboard. Its open framework technology allows the platform to integrate with existing 3rd party applications, systems, and technologies.

SUITE OF SECURITY APPS

This suite unifies security monitoring of devices, systems, applications, and infrastructure while automating security workflows.
- Unify monitoring
- Automate workflows
- Scale as needed

ARMED DASHBOARD

Keep track of high-level alerts, performance, and maturity levels through a centralized dashboard that gives you a real-time view of risk vs. operational capabilities and allows you to develop a strategic roadmap.
- Enable centralized monitoring
- Earn a real-time view
- Build a strategic roadmap
- Simplify compliance; perform board-level reporting

THREAT INTELLIGENCE MODULES

Enable several unique functionalities; hunt for undetected vulnerabilities and simulate attacks to test your response capabilities. You can also evaluate 3rd party vendor security postures and maintain an inventory of mission-critical assets.
- Create design basis threats
- Simulate attacks
- Evaluate vendors

Why UDTSecure?

The UDTSecure Suite provides a framework that can evolve with your organization, its industry, its threats, and its changing compliance requirements. Besides giving you a fully-integrated solution for all your IT security needs, UDTSecure:

- INCREASES DETECTION AND RESPONSE SPEEDS TO THREATS

- GIVES YOU THE SUPPORT OF AN EXPERIENCED SECURITY TEAM

- PROVIDES YOU WITH ACTIONABLE DATA THAT PRIORITIZES REMEDIATION

- REDUCES YOUR COMPLIANCE BURDEN

- SUITE AND BOARD-LEVEL REPORTING

- MAXIMIZES CAPEX TECHNOLOGY INVESTMENTS
