UDTSECURE

BUILDING A PROTECTED DATA ENVIRONMENT THAT CAN ADAPT TO EVOLVING THREATS HAS BECOME A CRITICAL BUSINESS PRIORITY.

Are you ARMED for the digital future?

UDTSecure is an advanced suite of managed security and threat intelligence services and solutions that help you secure your IT assets and improve your overall security posture. We help you identify your organization's unique risk profile and design an approach that's tailored to its specific compliance and data management needs. With centralized management of your security tools and 24/7 real-time security operations, we enable immediate detection and response to any threat or vulnerability.

GOVERNANCE, RISK, & COMPLIANCE

Address compliance requirements and specific vulnerabilities, and implement necessary improvements to policy, procedure, and practice:
- Address vulnerabilities
- Adhere to compliance
- Manage policies and procedures

SECURITY OPERATIONS

Enable reliable managed security services and a 24/7 Security Operations Center:
- Managed security services
- SOC
- 24/7 Sec Ops support

INFRASTRUCTURE

Enable a protected data environment that is cost-effective, highly-secure, and ready for disaster recovery:
- Protect data
- Rebuild and improve infrastructure
- Maximize investments

UDTSECURE SUITE OF CYBERSECURITY SOLUTIONS & SERVICES

Our suite of cybersecurity solutions and services has been designed to give organizations a holistic view, true accountability, and full control over IT security and compliance management. We take your unique risk profile, business goals and specific needs in mind:
